THE

TEA QUARTERLY

THE JOURNAL

OF THE

TEA RESEARCH INSTITUTE

OF CEYLON

VOLUME XIX
1947

Edited by
ROLAND V. NORRIS, D.Sc., F.I.C.
Director, Tea Research Institute.

THE TEA RESEARCH INSTITUTE
St. Coombs, Talawakelle,
Ceylon.

CONTENTS

PART I (May 1947).

	Page
Proceedings of the T.R.I. Conference	1
Gadd, C. H.—The Institute During the War Years ...	3
Eden, T.—Manurial Responses of Tea and Weeds and Discussion	5
Tubbs, F. R. Blister Blight and Discussion	9
Gadd, C. H.—The Collection of Blistered Leaves	17
T.R.I. Circular.—Recording the Incidence of Blister Blight ...	20
Tubbs, F. R.—Blister Blight	23
—— Minutes of Meetings of the Board of the Tea Research Institute of Ceylon held on 13.12.46 and 17.2.47.	26

PART II (July 1947).

Editorial	33
Tubbs, F. R.—The Control of Blister Blight of Tea	34
Tubbs, F. R.—An Interim Report on Blister Blight (Reprinted)	41
Tubbs, F. R.—A Leaf Disease of Tea New to Ceylon (Reprinted)	43
Allday, C.—Blister Blight: The Influence of Early Tipping on Yield.	45
Van Der Kiste, W. R.—Blister Blight: Some Financial Aspect of its Control	48
Tubbs, F. R.—Notes on Blister Blight	50
PROCEEDINGS OF THE T.R.I. CONFERENCE (Contd.)	
Gadd, C. H.—Insect Populations and Discussion	56
Gadd, C. H.—Disease Problems	61
Tubbs, F. R. Physiological Investigations and Discussion ...	64
Lamb, J.—Tea Manufacture and Discussion	69
—— Minutes of a Meeting of the Board of the Tea Research Institute of Ceylon held on the 19th May, 1947.	74
—— Notices	76

PARTS III & IV (December 1947).

Editorial	77
Tubbs, F. R.—Spraying and Dusting in the Control of Blister Blight of Tea	78
Cameron, D. S.—Blister Blight in Relation to Planting and Supplying of Tea	92
Gadd, C. H. Studies of Shot-hole borer of Tea. III — Damage to the Tea Bush	96
Tubbs, F. R.—The Competition Factor	101
Eden, T.—The Effects of Hard Plucking	105
Norris, R. V. & Tubbs, F. R.—Report on a Visit to South India ...	109
Tubbs, F. R.—A Note on the Propagation of Camellias ...	116
—— Minutes of a Meeting of the Board of the Tea Research Institute of Ceylon held on the 26th September, 1947.	117
—— Notices	121

INDEX TO VOLUME XIX

	Page
Ambrosia fungus	96
Anguillulina pratensis	61
Blister Blight (*Exobasidium vexans*) —	
Albolineum	2, 87
Alternative hosts	53
Azalea	53
Bearing tea	25, 39, 50
Bordeaux powder	80
Budbreak	54
Camelia species	53
Clearings	38, 39, 41, 90
Climatic conditions	11, 23, 34
Clones, resistance of —	41, 55
red blisters on	50
Collections of affected leaves	17, 45
Colloidal copper dust	82
Control	10, 16, 34
artificial	11, 37, 78
economics of	48, 78, 92
natural	35
Copper —	
fungicides	39, 78
poisoning	14, 33
Cost —	
of dusting	38, 85
of early tipping	46
of spraying	38, 39, 91
Cut-across pruning	36, 42, 52
Damage from	15, 23, 25, 42, 77
Development	10
Dispersal	10, 44
Dry weather recovery	35, 40, 54, 79, 91
Dusting —	37, 78
frequency	82
Elevation	37, 40, 41, 42
Eradication	15, 34
Estate policy	25, 33, 37, 90

Page

Blister Blight—contd.
Exobasidium —
rhododendri 53
vexans 9, 43
zeylanicum 53
Fixatives for fungicides 87
Folosan 83
Fringe pruning 36, 40, 55
Gordonia imbricata 53
Hersall transplanters 92
Hosts 53
Humidity 34, 35
Incubation period 9, 18
Infection — 10, 13, 18, 35
and leaf exposure 88
Jats, resistant 44
Leaf collection 17
Lime sprays 81
Lung pruning 36, 40, 42, 43
Manuring 15, 40, 53, 55
Mature tea 25, 38, 39, 50
North-East Monsoon 23, 34
Nurseries 38, 41
Occurrence —
field 9, 12, 34, 41, 43, 50
recording 13, 20, 37
Perelan I 38, 82, 83
Perenox ... ... 14, 38, 80 *et seq.*
Plucking —
close 14, 20, 25, 37, 40, 42
Policy 25, 33, 37
Pruning — 33
Dry weather recovery 35, 40, 41
Wet weather recovery 24, 40, 42
Methods 11, 12, 23, 36, 40, 42, 52, 55
Time 12, 24, 54
Budbreak 23, 54
Records 13, 20, 37
Red blisters 33, 44, 50
Rhododendron 53

Page

Blister Blight—contd.
Resistance —
of bushes 10, 35, 50, 55
of clones 10, 41, 50, 67, 93
of jats 44
of tissues 10, 11, 14, 35
Sandoz —
dust 83
spray 88
Sauraja nepalensis 53
Seed —
at stake 92
gardens 94
Selection of resistant clones 41, 55, 93
Shade — 12, 34, 37, 41
removal 52
Skiffing 42, 52
South-West Monsoon — 24, 34
districts 54
Spore germination 35, 44, 90
Spraying — 11, 18, 37, 41, 78
difficulties with 39
frequency 11, 37, 39, 85, 88
machines 79, 91, 92
mature tea 11, 38, 39, 41, 90, 91
nurseries 11, 38, 41
young clearings 38, 90, 91
in rainy weather 91
Sprays —
concentration 33, 87
customs duties 40
Stumps — 92
Sulphur —
compounds 24, 39
dusting 39, 80
Sulphinette 39, 81
Supplying Tea 92
Symptoms 10
Taints from fungicides 80
Temperature 35
Tipping 14, 23, 24, 36, 40, 42, 43, 45, 46
Vegetative propagation 94

	Page
Blister Blight—contd.	
Vigour of tea	53, 55
Virulence	50
Uva	13, 14, 23, 25
Wet weather recovery	40
Yield and blister blight	51, 53, 56
Camellias and their culture (Book review)	116
Clonal seed gardens	68
Competition factor	101-105
Eelworms	61
Fertiliser distribution	77
Fertiliser rationing	33
Galls caused by eelworms	61
Green manures	77
Guest House at St. Coombs	32, 76, 121
Heterodera marioni (root knot eelworm)	61
Insect populations	56-61
"Lung" Pruning	64, 68
Macrocentrus homonae (parasite on tea tortrix) ...	58
Manufacture —	
Address to T.R.I. Conference	69-73
Manuring of tea —	
manurial responses of tea and weeds	5-9
nutrition of tea	8
weed competition	7
weed control	8
Meadow eelworm (*Pratylenchus pratensis*)	61
Minutes of T.R.I. Board Meetings	26, 30, 74, 117
Mites	64, 67
Nematodes	61
Nettle grub	56
Notices	32, 76, 121
Pests of tea —	
Disease problems	
Anguillulina pratensis	61
Heterodera marioni	61
Phloem necrosis	62
Pratylenchus pratensis	61
Insect populations (proceedings of T.R.I. Conferences)	56-61
nettle grub	56
shot-hole borer	58
tea tortrix and its control by *Macrocentrus homonae*	57

	Page
Phloem necrosis	62
Physiological investigations	64-68
Plucking —	
effects of hard plucking (with special reference to blister blight)	105-109
Pratylenchus pratensis	61
Replanting of tea and comparison between various replanting distances	101-105
Report on a visit to S. India	109-115
Root knot eelworm (*Heterodera marioni*)	61
Selection work on tea	66
Shot-hole borer, see *Xyleborus fornicatus*	
Tea Research Institute's work during the war years	3-4
Tea tortrix and its control by *Macrocentrus homonae* ...	57
Tephrosia	61
Vegetative propagation	66
Vigna	7
Weeds —	
manurial competition with tea	7
weed control	8
Wilt	57
Xyleborus fornicatus Eichhoff *fornicatior* Eggers, Shot-hole borer —	
branch breakage	98
damage to the tea bush	96-100
die back	97
effect of elongating pruning cycle on	99
general	58
wood rot	96
